Word Order (See also *Study 22*)

In Bengali the sentence structure can be kept fairly simple, but it is has rules, and these use a different word order from English, for example:-

L’ordine delle parole (Vedi anche *Studio 22*)

In bengali la struttura della frase può essere formata in modo abbastanza semplice, ma ha delle regole e usa un diverso ordine rispetto all’italiano. Per esempio:

In English	person (or subject)	verb	other details
In Italiano:	soggetto	verbo	altri dettagli
In Bengali	person (or subject)	other details	verb
In Bengali:	soggetto	altri dettagli	verbo

For example: **Per esempio:**

In English:- In Italiano:	I io	am SONO	here qui
In Bengali:- In Bengali:	I io	here qui	am SONO

The verb forms "am", "are", or "is" may (i) link two aspects of something or someone (the positive *copula*) or (ii) be the auxilliary part of another verb, such as in "I am going". The copula may be omitted in Bengali, if the context makes its presence automatically implied:-

Il verbo “essere” al tempo presente può indicare due aspetti di qualcosa o qualcuno (copula) o essere la parte ausiliare di un altro verbo come in “io sto andando”. La copula può essere omessa in bengali, se il contesto rende la sua presenza automaticamente implicita.

আমি ভালো [আছি] aami bhaalo [aachi]	(~“aami bhaalo aatchi”)	I _[am] fine io sto bene
